"Business is Business"

—and something more

THE old adage implies that business is always cold, uncompromising and selfish.

The tradition is refuted at this bank by courtesy, friendliness and a sincere desire to accommodate you.

We believe that business can be transacted on a personal, cordial basis without sacrificing efficiency.

North Carolina Birth and Death Rates—1928

For the tenth consecutive year, North Carolina leads the United States with the highest birth rate, this being 27.5 per thousand population. The rate for the entire birth Registration Area (which is 91.3 per cent of the population of the United States, or all States with the exception of South Dakota and Texas), was 19.7, or more than eight per thousand less than North Carolina.

The State birth rate for whites was 26.7 per thousand population and the colored was 29.4 per thousand. No comparative figures can be given for the State birth rate, white and colored with the birth rate for the Registration Area, white and colored, since these figures have not been issued by the Bureau of the Census.

The death rate for North Carolina is 12.3 per thousand population as compared with 12.3 for the Death Registration Area of the United States, which includes 91.3 per cent of the population of the United States. The white death rate for North Carolina was 10.7 per thousand and the Negro rate 16.2 per thousand.

Rates for the Registration Area of the United States are taken from the provisional birth and mortality figures issued by the Bureau of Census, July 22, 1929.

Five Reasons for the Popularity
of the
STRAYER-UPTON ARITHMETICS

Published in a Three-book Series
and a Six-book Series

THEY TAKE UP only one new difficulty at a time, and cover this so thoroughly that the pupil approaches the next step with understanding and confidence:

THE APPLICATION of each new arithmetical principle in a type problem is immediately explained and followed by numerous exercises requiring practice in the same process:

ALL THE EXERCISES are arranged systematically in all possible combinations in order to build up fundamental skills:

ALL THE NECESSARY drill is provided and ways are suggested by which the teacher can increase the number of exercises ad libitum.

EACH PAGE is a complete, compact unit—presenting one and only one thing at a time—which makes it easier to teach and easier to study.

Authors: GEORGE DRAYTON STRAYER, PH. D., *Professor of Education, and* CLIFFORD BREWSTER UPTON, A. M., *Professor of Mathematics, both of Teachers College, Columbia University.*

The 4TH Ingredient

ALONG with their ammoniates and superphosphates and potash, V-C Fertilizers always contain a fourth ingredient. This is not a substance at all, yet it makes the whole mixture good as to sources and blend, as to contents and condition. V-C Fertilizers would not be the same without it.

This fourth ingredient, found in no other fertilizer but V-C, is a priceless one. It is . . . *V-C's good name!*
